“We are so appreciative of SCF fully funding our Senior Center's Caregiver Meals program. We're frequently told that our volunteers are the only people caregivers get to see unless it's a medical emergency, and the meals make them feel like they haven't been forgotten. Thank you!”

“The Southborough Community Fund has played a critical role in sparking educational innovation through its generous grant program. As a result, educators have piloted new programs, techniques, and technologies to better support students' learning. The SCF has been a tremendous partner and has made a positive impact on helping educate, inspire, and challenge all students.”
